

MANAGEMENT PROCEDURE

GES-SAN-SEC-001

MANAGEMENT OF CHANGE AND MODIFICATIONS

OBJECTIVE

The objective of this procedure is to define the procedure to be followed when changes are desired on a system or equipment.

APPLICATION

This procedure applies to all employees of MACHINES ROGER INTERNATIONAL. The procedure applies to any changes to existing design parameters or specifications of equipment, systems or processes used in our operations. Regardless of the size of the change, any modification, alteration, design change, process changes or any other action that modifies the original design and specifications requires change management within the guidelines of this procedure. The protocol does not apply to normal maintenance or repair work where the original design parameters or specifications are not changed.

INTERPRETATION

The personnel having the authority for the interpretation of this document are the Director of Operations, the Superintendent OHS and the Director of Maintenance. Any request for modification, revision or update must be made to one of these persons.

MODIFICATIONS

Any modification that may affect the original design of equipment or its original specifications;

Any modification that could result in an indefinite response resulting from a change;

This includes changes to specifications and / or engineering design parameters;

This does not include procedures or methods that are handled through standard task procedures.

MANAGEMENT OF CHANGE AND MODIFICATIONS RESPONSABILITIES

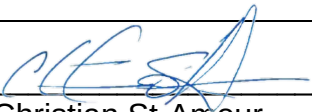

The following table shows the persons responsible for each type of modification that could be the subject of a request:

MODIFICATION :	RESPONSIBLE FOR AUTHORIZING THE MODIFICATION	EXTERNAL RESSOURCES
Mobile equipment	Maintenance manager	Manufacturer
CUBEX Drill	Maintenance manager	
Compressor	Maintenance manager	
CUBEX drill controls	Maintenance manager	
STM rigs	Maintenance manager	
DR FAB rigs	Maintenance manager	
Drill programmation	Electrical superintendant	
Hydraulics systems	Maintenance manager	
Working platform	Maintenance manager, HS Superintendant	
Lubricants products	Maintenance manager	
Electrical systems	Surintendant électrique	
Ergonomic concepts	HS Superintendant	
Hand tools	Maintenance manager, HS superintendant	
Communication system	Maintenance manager	
Lifting equipment	Maintenance manager	Manufacturer
Lifting tools	Maintenance manager, HS Superintendant	Suppliers

Before any modification, a risk analysis must be carried out considering the impacts of each of the changes on the operations of the equipment.

For any changes, the following checklist should be used to make the request and the person responsible for authorizing the changes will take all of the information into consideration in making a final decision.

Corrections	Date	By
Add a comments sheet	6-12-2021	S. Tremblay
Add a place to explaine the modification	6-12-2021	S. Tremblay
Move approver signatures around to avoid confusion	23 mars 2022	S. Tremblay
Add signatures at the end of the form to confirm the participation	20 avril 2023	S. Tremblay
Translation revision	April 2024	C. St-Amour S. Tremblay

Christian St-Amour
Operations manager

Stéphane Tremblay
HS Superintendant

Karl Béchard
Maintenance manager
