

WORK PROCEDURE

SAN-SEC-006A

WELCOMING PROCEDURE OF A NEW WORKER ON A SITE

OBJECTIVE

The objective of this procedure is to define the way to welcome our new workers on the sites where MACHINES ROGER INTERNATIONAL has contracts.

APPLICATION

This procedure applies to all new employees of MACHINES ROGER INTERNATIONAL.

INTERPRETATION

The personnel having the authority for the interpretation of this document is the H&S Superintendent. Any request for modification, revision or update must be made to this person.

RESPONSABILITIES

- The HS Superintendent ensures that this procedure is applied when a new employee arrives on a site;
- The general-foreman or supervisor must apply this procedure and support the new employee in the onboarding process;
- The foreman-general must keep the worker's signed welcoming documents on file;
- The worker must actively participate in the reception.

PROCEDURE

- 1- The worker must first have made the online induction of MACHINES ROGER INTERNATIONAL;
- 2- The worker must carry out the client induction process;
- 3- As soon as the induction of the client is done, the foreman-general must take charge of the worker;
- 4- Complete the welcome form with the topics discussed with the worker.
